COMPANY PROFILE

CHUEN CHAO Enterprises Co., Ltd. established in 1989, specializing in the application and innovation of metal cold forging technology. The company is dedicated to the design, research, development, and the manufacturing of automotive and motorcycle parts, nuts, bolts, sockets, bicycle components, and various fasteners. CHUEN CHAO possesses advanced cold forging equipment and precision technology, which effectively reduces secondary processing steps during production, so as to significantly improving production efficiency, saving materials, and reducing costs.

CHUEN CHAO has always adhered to strict quality standards. Through precise and reliable testing instruments and scientific quality management, the company ensures that every product meets customer requirements. Not only does the company have strong research and development capabilities, but it also offers flexible, customized services to meet the diverse needs of the market. CHUEN CHAO is committed to providing products and services that exceed customer expectations, establishing itself as a leading manufacturer in the metal cold forging industry.

CHUEN CHAO's products meet international standards and are exported globally, widely applied across various industries.

We don't only provide efficient production and accurate delivery times but also continuously innovate and improve. And are aim to establish long-term, stable partnerships with customers worldwide, to create more opportunities and success together.
